

NEW AMERICAN SEATING

VARSDITY

*a new line of furniture
for higher learning.*

Tables and chairs especially designed for college and university classrooms, lecture rooms, amphitheatres, dormitories, all-purpose areas, gymnasiums, auditoriums, arenas, and field houses.

AMERICAN
SEATING

VARSITY

For the first time . . .

Functional furniture expressly designed with the collegiate learning and instructing situation in mind

Basic features of the **VARSITY** line:

Designed to fit the needs of students

Styled for today's modern architecture

Colors to enhance today's interior decoration

Comfort for increased attention to learning, greater freedom to perform

Quiet for better instruction

Convenient for quicker egress and ingress

Easy to clean, easy to clean around

Durability for freedom from maintenance

Compact for better use of space

Large, comfortable, compound-curved seat and adjustable back panel made of comfortable, colorful, and durable Amerflex. This indestructible, yet supple plastic flexes to conform to body contours, then returns to original shape when occupant arises. Amerflex is textured to prevent slipping, will not crack or flake, resists soils and stains, is shock resistant and never needs refinishing.

Amerex work surfaces

Durable finish

features

- These new, sturdy, attractive tables are ingeniously designed to provide a continuous working surface in straight or curved rows; or in individual sections, as two-student tables.
- Each table section is approximately 48 to 60 inches long, 16 to 24 inches wide and 29 inches high, depending upon seating and spacing requirements involved. Custom layout to fit room and curriculum requirements.
- For curved rows, sections are fitted for arc required, securely joined to each other, and bridged by sturdy pedestal supports.
- The offset pedestals have non-scuff, low-silhouette cast aluminum bases without protruding bolt heads. They are permanently fastened to the floor under the supervision of American Seating installation engineers. There is plenty of leg room. They are easy to clean around.

VARISITY

PEDESTAL TABLE AND CHAIRS

- Table tops are of heavy Amerex hard-core construction, five times more wear resistant than wood. They will not warp, check or split; resist defacing and dents; have a light reflectance of 40% to 50%; and are stainproof. Never need refinishing.
- Roomy, continuous, full-length shelf under top provides adequate book storage.
- Convenient Varsity pedestal chairs are easy to get in and out of. Seat swivels silently 45° either way.
- Seat also slides fore and aft to adjust to individual student requirements.
- Seat and back of comfortable, colorful, durable Amerflex which flexes to conform to body contours. Never needs refinishing.
- Sturdy pedestal has non-scuff, low-silhouette base, without protruding bolt-heads, providing more leg room and making it easy to clean around.

features

- These new, sturdy, attractive tables are ingeniously designed to provide a continuous working surface in straight or curved rows, or in individual sections, as two-student tables.
- Each table section is approximately 48 to 60 inches long, 16 to 24 inches wide and 29 inches high, depending upon seating and spacing requirements involved. Custom layout to fit room and curriculum requirements.
- For curved rows, sections are fitted for arc required, securely joined to each other, and bridged by sturdy pedestal supports.
- The pedestals have non-scuff, low-silhouette cast aluminum bases without protruding bolt heads. They are permanently fastened to the floor under the supervision of American Seating installation engineers. There is plenty of leg room. They are easy to clean around.

VARSITY

PEDESTAL TABLE AND FOUR-LEGGED VARSITY CHAIRS

- Table tops are of heavy Amerex hard-core construction, five times more wear resistant than wood. They will not warp, check or split; resist defacing and dents; have a light reflectance of 40% to 50%; and are stainproof. Never need refinishing. Roomy full-length book-storage shelf.
- Seat swivels 360° silently on long-lasting nylon bearings.
- Seat and back of Amerflex for comfort and durability.
- Double-offset back braces position back for proper support.
- Sturdy, stretcher-free legs are easy to sweep around, allow freedom of leg movement.
- Non-marring, large-diameter plastic glides have rubber-cushioned ball-joint for automatic alignment to floor, even when chair is tilted.
- Hard, baked-on metal finish.
- Compact, attractive design promotes efficient use of space and time, and is adapted to universal use on the campus.
